For the purposes of the MIS data element, the Chancellor’s Office Work-Based Learning Advisory Committee proposes a definition for the data element with these characteristics:

Course-linked learning experiences that are outside of the classroom and include an employer or community connections. Work-based learning could include any of the following activities:

- pre-apprenticeships
- job shadowing
- mentorship
- internship
- clinical experience
- work-study programs
- informational interviews
- attendance at trade shows
- field experience
- community service learning

Other locally defined activities would be permitted. However, activities that are fundamentally within the classroom would not be included. These excluded activities might involve project-based learning, school-based enterprises, virtual enterprises, or classroom speakers.
